AUTHOR-TITLE INDEX
Volume V

Armstrong, Ronald D. (with Frome, Edward L., and Sklar, Michael G). Linear Programming in Exploratory Data Analysis. 4:293.

Bergan, John R. (with Cancelli, Anthony A., and Luiten, John W.). Mastery Assessment with Latent Class and Quasi-Independence Models Representing Homogeneous Item Domains. 1:65

Bergan, John R. A Quasi-Equiprobability Model for Measuring Observer Agreement. 4:363

Blair, R. Clifford (with Higgins, James J.). A Comparison of the Power of Wilcoxon's Rank-Sum Statistic to That of Student's t Statistic under Various Nonnormal Distributions. 4:309

Bush, Andrew J. (with Gallimore, Debra N., and Rakow, Ernest A.). A Comment on Correctly Calculating Higher Order Semipartial Correlations. 1:105

Byrk, Anthony S. (with Strenio, Judith F., and Weisberg, Herbet I.). A Method for Estimating Treatment Effects When Individuals Are Growing. 1:5

Cancelli, Anthony A. (with Bergan, John R., and Luiten, John W.). Mastery Assessment with Latent Class and Quasi- Independent Models Representing Homogeneous Item Domains. 1:65

Chang, Horng-shing (with Toothaker, Larry E.). On "The Analysis of Ranked Data Derived From Completely Randomized Factorial Designs". 2:169

Dayton, C. Mitchell (with Macready, George B.). A Two-stage Conditional Estimation Procedure for Unrestricted Latent Class Models. 2:129

Delaney, Harold D. (with Maxwell, Scott E.). The Use of Analysis of Covariance in Tests of Attribute-by-Treatment Interactions. 2:191

Edgington, Eugene S. Invited Paper - Validity of Randomization Tests for One-subject Experiments. 3:235.

Edgington, Eugene S. In Rejoinder - Overcoming Obstacles to Single-subject Experimentation. 3:261.

Frome, Edward L. (with Armstrong, Ronald D., and Sklar, Michael G.). Linear Programming in Exploratory Data Analysis. 4:293.

Gallimore, Debra N. (with Bush, Andrew J., and Rakow, Ernest A.). A Comment on Correctly Calculating Higher Order Semipartial Correlations. 1:105.

Getson, Pamela R. (with Knight, David L., and Rudner, Lawrence M.). Biased Item Detection Techniques. 3:213.

Gustaffson, Jan-Eric (with Morgan, Anne, and Wainer, Howard). A Review of Estimation Procedures for the Rasch Model with an Eye Toward Longish Tests. 1:35

Higgins, James J. (with Blair, R. Clifford). A Comparison of the Power of Wilcoxon's Rank-sum Statistic to That of Student's t Statistic under Various Nonnormal Distributions. 4:309.

Hornick, Chris W. (with Overall, John E.). Evaluation of Three Sample Size Formulae for 2 x 2 Contingency Tables. 4:351.

Kazdin, Alan E. In Response - Obstacles in Using Randomization Tests in Single-case Experiments. 3:253.

Knight, David L. (with Getson, Pamela R., and Rudner, Lawrence M.). Biased Item Detection Techniques. 3:213.

Kraemer, Helena Chmura. Robustness of the Distribution Theory of the Product Moment Correlation Coefficient. 2:115.

Li, Loretta (with Owen, D.B.). The Use of Cutting Scores in Selection Procedures. 2:157.

Luiten, John W. (with Bergan, John R., and Cancelli, Anthony A.). Mastery Assessment with Latent Class and Quasi-Independence Models Representing Homogeneous Item Domains. 1:65.

Macready, George B. (with Dayton, C. Mitchell). A Two-stage Conditional Estimation Procedure for Unrestricted Latent Class Models. 2:129.

Maxwell, Scott E. (with Delaney, Harold D.). The Use of Analysis of Covariance in Tests of Attribute-by-Treatment Interaction. 2:191.

Maxwell, Scott E. Pairwise Multiple Comparisons in Repeated Measures Designs. 3:269.

Morgan, Anne (with Gustafsson, Jan-Eric, and Wainer, Howard). A Review of Estimation Procedures for the Rasch Model with an Eye Toward Longish Tests. 1:35.

Overall, John E. Continuity Correction for Fisher's Exact Probability Test. 2:177

Overall, John E. (with Hornick, Chris W.). Evaluation of Three Sample Size Formulae for 2 x 2 Contingency Tables. 4:351

Owen, D.B. (with Li, Loretta). The Use of Cutting Scores in Selection Procedures. 2:157.

Rakow, Ernest A. (with Bush, Andrew J., and Gallimore, Debra N.). A Commentary on Correctly Calculating Higher Order Semipartial Correlations. 1:105.

Ramsey, Philip H. Exact Type 1 Error Rates for Robustness of Student's t Test with Unequal Variance. 4:337.

Rudner, Lawrence M. (with Getson, Pamela R., and Knight, David L.). Biased Item Detection Techniques. 3:213.

Sklar, Michael G. (with Armstrong, Ronald D., and Frome, Edward L.). Linear Programming in Exploratory Data Analysis. 4:293.

Strenio, Judith F. (with Byrk, Anthony S., and Weisberg, Herbert I.). A Method for Estimating Treatment Effects When Individuals Are Growing. 1:5.

Toothaker, Larry E. (with Chang, Horng-shing). On "The Analysis of Ranked Data Derived From Completely Randomized Factorial Designs". 2:169.

Viana, Marlos A.G. Statistical Methods for Summarizing Independent Correlational Results. 1:83.

Wainer, Howard (with Gustafsson, Jan-Eric, and Morgan, Anne). A Review of Estimation Procedures for the Rasch Model with an Eye Toward Longish Tests. 1:35.

Weisberg, Herbert I. (with Byrk, Anthony S., and Strenio, Judith F.). A Method for Estimating Treatment Effects When Individuals Are Growing. 1:5.
